Flu Vaccine Drive-Thru

Saturday, September 28
8:00a.m. - 12:00p.m.

Golden VA Clinic - VA Eastern Colorado Health Care System encourages all Veterans to get their annual flu shot. The flu shot is safe, effective, and decreases the possibility of hospitalization.

Flu is highly contagious, and anyone can get it. It is especially harmful to the elderly and those who have health problems like asthma, diabetes, heart disease and people with weakened immune symptoms. Pregnant women, people older than 50, health care personnel and those who care for friends and family members should get a flu shot.

Flu vaccines are now available at no cost to eligible Veterans at more than 70,000 in-network community providers nationwide. Get yours today!

COMMUNITY CARE INFORMATION

No-Cost Flu Vaccines are also available to enrolled Veterans at pharmacies and urgent care locations across Colorado. To find a close-to-home and in-network Community Care provider, enter your zip code in the drop down menu of the VA locator at: <https://www.va.gov/find-locations/>
